Update as of today: The federal lawsuit and an injunction was filed against Marquette County Sheriff Joe Konrath Thursday morning. For much more detailed information, for your listening pleasure is a link to a radio Interview from this morning (Friday) on Sunny 97.7 FM with our attorney for Amyahs case. Pay particular attention to the part about the Sheriffs attorney statements and the facts from the Sheriff Deputy Klumps actual report discussed by our attorney

Interesting read. A few paragraphs down, read the comments of the Wi Dept of Health and what they are saying about the potential of the ACTUAL CASES REPORTED NUMBERS COULD BE OFF BY AS MUCH AS TEN TIMES POSSIBLY MORE!! Isn't this exactly what I've been trying to get people to understand with Amyiahs situation? She presented with low symptoms consistent with Covid-19 and was not tested but would have tested positive most likely, had they actually tested her. Her test done this week being negative, does not mean she would not have tested positive on her initial ER visit! So now everyone can read the reporting structure screw up for themselves straight from the Dept of Health!!

Yes I know the post is about evictions and foreclosures... the Dept of Health statement is in there

WKOW.COM

Gov. Evers bans evictions, foreclosures; COVID-19 cases exceed 800

So this happened yesterday Fri evening:

Knock at the door. It's a Marquette County Sheriff's deputy. He advises me that he was sent under direct orders from Sheriff Joseph Konrath. The deputy stated that Sheriff Konrath was contacted by Westfield School Administer Bob Miecher complaining about an Instagram post Amyiah had posted while being treated for her Covid-19 symptoms at UW Childrens Hospital. He advised that Mr Miecher and the Sheriff were demanding the post be taken down/removed. If we refused to do so, the deputy said he had very specific instructions from the Sheriff to cite us for disorderly conduct and start taking us to jail. This is because no reported Covid-19 had been reported in Marquette County. There was no report because as per my previous post warning everyone about the difference between diagnosed cases and actual tested cases...only tested cases are reported.

I refused initially, but Amyiah immediately removed the post due to the fear of the sheriff's orders... she did not want to see us get into trouble. The troubling photo??

Was a photo of her while at UW Childrens hospital captioned "Winning the fight with Covid-19".

After the deputy leaves, we discover this posted on the Westfield School District website as of 3-27-20 under school updates for Covid-19 by SCHOOL ADMINISTER BOB MIECHER (this is only a part of the post as it directly relates to Amyiah in paragraph #5):

"It was brought to my attention today that there was a rumor floating out there that one of our students contracted Covid-19 while on the band trip to Florida twice weeks ago. Let me assure you there is NO truth to this. This was a FOOLISH MEANS TO GET ATTENTION and the source of the matter has been addressed. This rumor had caught the attention of our public health dept and she was involved in putting a stop to this nonsense. In times like this, the last thing we need out there is misinformation."

There is so much wrong with this situation I don't even know where to start. Should we address the School Administrator and Sheriff's medical degrees? Neither of these two know or understand what she was being treated for or what was odd to us by the medical staff...they never asked or attempted contact to ask. How about Civil rights, freedom of speech, being subjected to a "Good ol'Boys" club of the relationship between a school administer and the Sheriff. How about the fact that no one from the school or the school administrator himself attempted contact with us requesting information or to check up on Amyiah.

What Mr. Miecher and the Sheriff himself just pulled on our family is very disturbing. Neither of them know what we went through and the scares if watching your child have breathing issues and being taken several times to ER and ambulances to a childrens hospital for treatment. ...

Just so these two can intimidate a family through their COWBOY WAYS and abuse of their power. Then allow a school administrator to attack a student publicly like this....knowing full well who he was addressing!

This is not over, trust me. It's only the beginning. Emails have been sent to various state agencies including the State Attorney General's office and the State superintendents office. Voicemails have been left with State Representatives and Congressman Grothmans aide.

I will personally post the photo they made Anyiah take down, by next week if Mr miecher is not dealt with by the Sheriffs dept in the same manner and courtesy extended as our family was, in his post about Amyiah.

This is only the start. The web pages/updates have been saved and screen shot then forwarded accordingly.

Angelina Mayo I didn't think hospitals were treating untested cases... that's basic hospital procedure. No positive test no treatment for said illness in specific.. so I can see why the school was concerned.

Like · Reply · 3w

2

Hide 15 Replies

Angelina Mayo That being said. I hope she makes a full recovery regardless. And I'm not saying she does not have it. Just confused as it's not typical protocol to state a patient has something that has a test for a certain answer without giving the test. Being that my child drs at that hospital I'm pretty familiar with the standards and how they do things.

Like · Reply · 3w · Edited

1

Rick Cohoon Angelina Mayo there is No TREATMENT, NO VACCINE...

they give a patient suspected/diagnosed and even tested positive patients an inhaler and send you home to self quarantine! That's it... theres your "treatment" no matter if you're tested or not suspected and diagnosed with a respiratory virus w symptoms consistent with Covid-19. The only thing that can be done is give meds to increase production of low white blood cell count to help fight the virus, oxygen and nebulizer treatments if you get hospitalized with severe symptoms.

Like · Reply · 3w · Edited

9

Rick Cohoon Angelina Mayo the public cannot force the ER's to test the virus. They have specific guidelines for testing due to State Lab's shortage of materials/ingredients to run tests. The UW does their own. Amyiah was diagnosed with upoer respiratory virus having symptoms consistent with Covid-19 and signed by the treating ER Dr at Divine Divine Savior hospital

Like · Reply · 3w · Edited

the symptoms. Inhaler/nebulizer is also a treatment depending on the severity. And in severe cases requiring those they are not sending people home. Because of how quickly this virus gets worse. Having "suspected" covid-19 and having it for sure are different things.. those receiving hospital treatment are tested was what I was saying. They don't hospitalized on a suspected diagnosis. Also. If the hospitals own test show positive it is still reported as such.

Like · Reply · 3w

2

Rick Cohoon **Angelina Mayo** She was given specific quarantine instructions to be in her bedroom and use of bathroom next to it effective that day for next two weeks. We were given instruction to quarantine to home as well for 2 weeks. My employer literally tossed me out the door when I reported her diagnosis that afternoon.

Like · Reply · 3w

3

Angelina Mayo Again. I am not saying she does not have it. Just that I understand where the school was coming from in regards to not wanting to cause panic amongst others who were on that trip.

Like · Reply · 3w

1

Rick Cohoon **Angelina Mayo** the school was only notified because the Dr said it would not hurt to give the school a heads up. So as responsible parents we notified the school. If the school had any ?'s they could have called for further information. This is what responsible adults do when they effectively communicate.

Like · Reply · 3w

11

Angelina Mayo I agree the school could have handled it in a more mature way most definitely

Like · Reply · 3w

1

Rick Cohoon **Angelina Mayo** FYI... nowhere did I indicate you were "stupid" Based on your statements I am simply offering explanations of what happened to us and what our communications were with the staff treating our daughter. That is all.

Like · Reply · 3w

3

Angelina Mayo There is a reason names of infected are not being released.. the CDC does not want panic. And as soon as someone says they have it. Or the public is informed now they have people rushing to the E.R wanting to be tested because someone they knew had it.. so. In that regard I fully understand the school not wanting it out there.

Like · Reply · 3w

1

Rick Cohoon **Angelina Mayo** I do not disagree... the point of this is how it was actually handled. This was not the appropriate way. Now they need to be held accountable for the way it was handled. That's what this is actually about.

Like · Reply · 3w

7

Angelina Mayo Agreed. 100% as a person in charge they should have come to you before resorting to police and intimidation.

Like · Reply · 3w

1

Angel Cayer Was she tested? I know someone that was told to self quarantine for 14 days. But without being tested we are not sure

Like · Reply · 3w

2

Michelle Dewildt As a precaution they are telling everyone with symptoms to self quarantine. It's a good idea with any illness really.

Cynthia Sarac Contact the CDC in Madison and advise them of the situation and ask them what to do. When my daughter was in middle school she contracted mumps, even though she was vaccinated. My doctor had to report her to the CDC. She was ordered to quarantine herself and I had to contact the school and all her friends that she came in contact with.

Like · Reply · 3w

2

Rick Cohoon Cynthia Sarac Exactly...

That was our only concern as well, for the school to be advised and given all information. They were even told she was not tested, but advised they were erring on side of caution and enforcing the quarantine. It exploded afterwards.

Like · Reply · 3w

Cynthia Sarac Rick Cohoon have your doctor contact the CDC so that it's documented.

Like · Reply · 3w

Angelina Mayo Cynthia Sarac the CDC is only recording tested cases not suspected cases.

Like · Reply · 3w

2

Cynthia Sarac Angelina Mayo I would still confirm that with the CDC

Like · Reply · 3w

1

Angelina Mayo By all means yes. I just was saying I'm pretty sure they only record positive tests. As many have suspected cases. But the CDC is only reporting once a tested case is positive.

JimandPatty Heuer Jeremy Matthew media is a good answer....they'll be all over this.

Like · Reply · 3w

3

Rick Cohoon Jeremy Matthew funny thing about disorderly conducts... they are used for a broad spectrum of reasons/reasoning.

The fact is it's a tool law enforcement can utilize to arrest you when no state law has been violated. They do not need to prove anything and most likely the DA will end up dismissing the charges. So the Law Enforcement Dept technically gets a win because they successfully arrested you & inconvenienced you. Very rarely do you see anyone willing to be arrested based off their character. Human nature is to decline and move away from threats such as this.

Ron Both Rick Cohoon Did she ever test positive for the virus? I know there aren't a lot of tests available and just want people quarantined if they have symptoms. If they had enough tests to go around, they would be shocked at how many people have the virus right now and it would panic everyone, which it should. I hope Amyiah gets well soon. Good luck dealing with the rest of that B.S.

Like · Reply · 3w

2

Rick Cohoon Ron Both no, she was never tested on her original ER visit. She was diagnosed with "Upper Respiratory Virus having symptoms consistent w/ Covid-19" and they advised beginning the 2 week quarantine with her specific instructions to quarantine to her bedroom/bathroom and not be allowed in rest of house. It wasn't until she was admitted to the children's hospital that she was tested and it came back next day negative. They believe she would have tested positive had she been tested previously

Joe Heiling Well wtf i just read the post a second time and still dont understand if she has it or not. No wonder the sheriff was upset with u people ur posting really confusing shit about a very serious virus

Like · Reply · 3w

1

Rick Cohoon Joe Heiling the answers to your question have been answered tirelessly in the comments... but since you have no time to obviously take a few minutes read through them and look for my replies/comments, here we go again. She was diagnosed by the treating Dr at first ER visit with UPPER RESPIRATORY VIRUS HAVING SYMPTOMS CONSISTENT WITH COVID-19. She was not tested because if the restrictions on testing people due to shortage of materials at WI State Lab. Only certain categories if people were allowed to be tested. She ended up back in Er with severe symptoms and the local ER in Portage had her ambulances to the UW Childrens Hospital for treatment. She was finally tested at UW due to admission to the hospital. Her results next day were negative. The medical staff believe she has Covid-19 and would have tested positive has she been tested to begin with. There is only a 7 day window to test for Covid-19 To help you understand our situation better, look at my latest post about the governor's press release on banning evictions and foreclosures. In this article is an admission that the positive #of cases reported are more likely ten times that amount because if patients who were not actually tested but were diagnosed with Covid-19 symptoms.

Joe Heiling Rick Cohoon im sry that wasnt very nice of me. I just worry too much about my little boy sometimes and also i did not have my coffee yet i shouldnt have been commenting on amything have a good day. Im very sry about ur daughter getting sick i hope the best for u and ur family during these crazy times

Like · Reply · 3w

1

Rick Cohoon Joe Heiling no problem joe... understandable. In a nutshell here is my advise based upon what we have learned so far w Amyiahs case -if you or anyone you know develop the symptoms and go to the ER and are "diagnosed" but not tested---have them do blood labs and check for a low white blood cell count. This indicates many things but the two most common are viral infection or cancer. If these get low enough you'll need medication to boost production to help fight the virus. --any further breathing issues, no matter what get back to the ER for nebulizer and other treatments. (We should have been back to Er on several occasions but were being told there wasn't much more that could be done) we waited until Amyiah had very severe breathing issues. Don't wait.... and have blood labs done again! Stay safe Joe

She was not originally tested at the ER.
 Upon her return visit with worsening breathing problems she was ambulances to UW Childrens Hospital. They tested her finally and it was negative.
 Her symptoms were treated as Covid-19
 And instruction to quarantine her to her bedroom and bathroom ONLY--NOT THE REST OF HOUSE.
 Her mother and I were just quarantined to the home.

2

Like · Reply · 3w

Dirk Rahm Rick Cohoon thank you for sharing.
 She was never documented to have it.

Like · Reply · 3w

Rick Cohoon Dirk Rahm that is correct...she was not documented to the Dept of Health when diagnosed because she was not tested at the time.

2

Like · Reply · 3w

Rick Cohoon Dirk Rahm this is why the Dept of Health is now claiming there are possibly ten times as many cases of Covid-19 than were reported, because they did not test everyone that had been diagnosed/treated for Covid-19 symptoms

1

Like · Reply · 3w

Dirk Rahm Rick Cohoon this whole thing is a goddamn disaster. From the top down.

1

Like · Reply · 3w

Rick Cohoon It is, very much agreed. They had better get a handle on it and get a vaccine developed.
 They are now claiming April will be worse than March as they expect the #'s to be much more as each day goes by. The WI State Lab is supposedly still missing crucial ingredients to fulfill testing, however the UW is doing their own testing and are not as limited to tests they can do for some reason.

1

Like · Reply · 3w · Edited

JoAnne Kempf Rick Cohoon Hi Rick, so sorry you & family are having to deal with this & hopefully your daughter makes a full recovery. CBS this morning did a segment on 'How the coronavirus is affecting rural America', March 21st. They did the segment on Wautoma. You may have seen it, if not, you can find it on YouTube. Dr. Rincon is interviewed and says the exactly what your ER doc stated. Is she going to be tested for the antibody? That would be amazing if she could help. Good Luck with everything.

1

Tami Wendorf Hope your daughter is feeling better. Times are scary right now. But when she posted that she is winning this battle and that she has it, that will cause a panic with all the kids she was around and now their families. I'm sure the school got tons of phone calls because they were panicking now. If you thought you might have been exposed, maybe a phone call to your boss instead of coming into work would not have caused a panic there. The school should have touched base with you before sending law. They should have canceled the trip, as other schools canceled theirs. As a parent and someone working in the public, the less contact we have the better.

Like · Reply · 3w

4

Rick Cohoon Tami Wendorf I was at work when Amyiah was diagnosed, so I let them know immediately. Angie messaged me a copy of the Drs diagnosis and quarantine plans. I didnt have a choice in the matter. We were under order to advise our supervisors immediately of any suspected direct contact with possible Covid-19. This isn't about the trip. They were almost ready to return home when all of this hit the fan. No matter if she had been tested, even doing so would never determine how or when or even where she contracted the symptoms. It's possible she could have got it from either her mom or I since we work at Casino and it was open for another week or more after she got home. As for the school-- they are grown ups and yes, should have handled it differently. They chose to handle it this way... nobody forced them too. This is on them, nobody else.

Like · Reply · 3w · Edited

4

Tami Wendorf Rick Cohoon yes they should have handled that differently. Sorry you guys are going through this. It's a parents worst nightmare.

threatening to arrest you all! Why are they trying to hide the fact that someone in the community potentially contracted COVID-19? Isn't that something people should know, so that they take extra cautions and preventive measures to prevent contracting it themselves? And wtf is up with the school board how dare they put a child on blast like that saying they are just seeking attention without knowing the facts? This is an example of why I hate Marquette county! I wish you guys the best and good health! I'm 100% on your side and back you up!!!

3

**Mike Eberle** They have absolutely no basis to make an arrest. Everyone just needs to calm down about the situation and start being rational.[Like](#) · [Reply](#) · 3w

3

**Rick Cohoon** Mike Eberle they use "disorderly conduct" citations and sometimes arrests like toilet paper. It's a "tool" they use for a broad spectrum of reasons. Most disorderly conduct cases are dismissed. The police know this.... the point though is they don't care because at the time of arrest it shows/proves their authority and more importantly it messes with your livelihood at the time because you get to wait until they release/process you at the jail then call for a ride and wait some more. They can just cite you from their vehicle..but if the cop wants to be a dick they can arrest you and process you at jail. It's a psychological thing

Rick Cohoon Marie Clark yes...exactly what is happening in Wi.
 Personally I believe they are trying to control the #'s to prevent mass panic.
 Notice how it took forever to get to 800 cases.... now all the sudden since Fri the numbers are taking off? 3
 Like · Reply · 3w

Sarah Jones I personally think the issue here is, I don't know them or how old she is. But I don't know many middle schoolers or Highschool kids that wouldn't post that. She went to the hospital, was told to quarantine, all the symptoms of covid -19.....but they won't test. So I'm sure in her eyes the families eyes, she HAD it. Was rushed to uw-children's, was treated FOR it. Took the pic.
 During that time.....
 -How many concerned "friends/classmates" reached out and asked if she was tested?
 -how many "concerned parents" concerned parents called the family instead of the school?
 A. She if she was ok?
 B. See if she was tested and what those results were.
 -the school was notified it's a possibility per docs orders....did the school call back?? Family says no! ISSUE.
 -did the school call to see if they have results, see if she's ok, see if she did get tested?? -family says no.
 Issue!!!
 -next day test came back negative, while this CHILD is SICK... how many of those phone calls happened still??? Yes she should have made a different post, how sick was she, how many posts did she make after she found out....
 -police come.
 - was there a conversation learning experience being taught?
 -hey girl....do u understand why u would cause unnecessary panic, u should have taken another pic of HEY it's NEGATIVE friends!?
 The school could have called and had that conversation!! Don't adults work there that work with kids every day??? Don't they know how to deal with them??? Instead, unknowing if she was positive or negative they sent the cops????
 Is how understood all the story!
 I'd be irate also if I was this family, cops coming to my house, when I never received 1 phone call from the school???
 A teaching moment flew out the window!
 My understanding...from friends/family/& other hearsay
 This is not the first time, either the principal or whoever at the school instead of having an adult conversation called the cops and have them deal with it.
 Cuz cops don't have anything better to do then tell a child to take down an Instagram post!?

Like · Reply · 3w

Justin Belant

According to scientists at Yale and several public university medical schools, when they asked for permission to start working on our own testing protocol and potential treatments or vaccines, they were denied by Trump's FDA.

When Trump knew about the first case in the United States he did nothing. It was just one case and the patient was isolated. When doctors and scientists started screaming in the media that this was a mistake, Trump claimed it was a "liberal hoax" conjured up to try to make him "look bad after impeachment failed."

The next time Trump spoke of Covid-19, we had 64 confirmed cases but Trump went before microphones and told the America public that we only had 15 cases saying "soon that number will be close to zero." All while the disease was spreading. He took no action to get more tests.

What Trump did do is stop flights from China from coming here. This was too late and accomplished nothing. By the time we got our first case, then the disease was worldwide and was already spreading exponentially in the U.S. by Americans, not Chinese people as Trump would like you to believe.

3

Like · Reply · 3w

Justin Belant

before anyone even knew about the disease (even in China) Trump disbanded the pandemic response team that he had set up and cut our funding to the CDC. And he cut our contribution to the World Health Organization (WHO).

Trump fired Rear Admiral Timothy Ziemer, the person on the National Security Council in charge of stopping the spread of infectious diseases before they reach our country - a position created by the Obama administration.

When the Outbreak started in China, Trump assumed it was China's problem and sent no research, supplies or help of any kind. We were in a trade war, why should he help them?

In January he received a briefing from our intelligence organization that the disease was much worse than China's admission and that it would decimate our country if something wasn't done to prevent it. He ignored the report, not trusting our own intelligence.

When the disease spread to Europe, the World Health Organization offered a board of tests to the United States. Trump told them that U.S. companies here would make the tests "better" if we needed them. But he never ordered U.S. companies to make tests and they had no profit motive to do so on their own.

Melanie Nawrot Justin Belant the FDA was following regulations put in place by the last administration, trump lifted those regulations so that other places can provide materials we need and to provide testing, trump also put the travel ban in when we got our first case in the USA, trump never called the virus a hoax but rather stated the Democrats using the virus as a political weapon was a hoax, the cdc and WHO stated trump putting the travel ban in place helped prevent the spread of the virus while the left claimed trump was racist for the travel ban.. you liberals really ought to seek facts and not believe everything you see in a meme on fb

**Melanie Nawrot Justin Belant**

Trump has been in office for 3 years. what has he done? Other than dodging the darts the media & Pelosi have thrown?!?

What have PRESIDENT TRUMP & his cabinet accomplished?

Here you go.

- * Trump recently signed 3 bills to benefit Native people. One gives compensation to the Spokane tribe for loss of their lands in the mid-1900s, one funds Native language programs. The third gives federal recognition to the Little Shell Tribe of Chippewa Indians in Montana.
- * Trump finalized the creation of Space Force as our 6th Military branch.
- * Trump signed a law to make cruelty to animals a federal felony so that animal abusers face tougher consequences.
- * Violent crime has fallen every year he's been in office after rising during the 2 previous years.
- * Trump signed a bill making CBD & Hemp legal.
- * Trump's EPA gave \$100 million to fix the water infrastructure problem in Flint, Michigan.
- * Under Trump's leadership, in 2018 the U.S. surpassed Russia & Saudi Arabia to become the world's largest producer of crude oil.
- * Trump signed a law ending the gag orders on Pharmacists that prevented them from sharing money-saving information.
- * Trump signed the "Allow States & Victims to Fight Online Sex Trafficking Act" (FOSTA), which includes the "Stop Enabling Sex Traffickers Act" (SESTA). Both give law enforcement & victims new tools to fight sex trafficking.
- * Trump signed a bill requiring airports to provide spaces for breastfeeding Moms.
- * The 25% lowest-paid Americans enjoyed a 4.5% income boost in November 2019, which outpaces a 2.9% gain in earnings for the country's highest-paid workers.
- * Low-wage workers are benefiting from higher minimum wages & from corporations that are increasing entry-level pay.
- * Trump signed the biggest wilderness protection & conservation bill in a decade & designated 375,000 acres as protected land.
- * Trump signed the Save our Seas Act which funds \$10 million per year to clean tons of plastic & garbage from the ocean.
- * He signed a bill this year allowing some drug imports from Canada so that prescription prices would go down.
- * Trump signed an executive order this year that forces all healthcare providers to disclose the cost of their services so that Americans can comparison shop & know how much less providers charge insurance companies.
- * When signing that bill he said no American should be blindsided by bills for medical services they never agreed to in advance.
- * Hospitals will now be required to post their standard charges for services, which include the discounted price a hospital is willing to accept.
- * In the eight years prior to President Trump's inauguration, prescription drug prices increased by an average of 3.6% per year. Under Trump, drug prices have seen year-over-year declines in nine of the last ten months, with a 1.1% drop as of the most recent month.
- * He created a White House VA Hotline to help veterans & principally staffed it with veterans & direct family members of veterans.
- * VA employees are being held accountable for poor performance, with more than 4,000 VA employees removed, demoted, & suspended so far.
- * Issued an executive order requiring the Secretaries of Defense, Homeland Security, & Veterans Affairs to submit a

most federal employees will see their pay increase by an average of 3.1% — the largest raise in more than 10 years.

- * Trump signed into law up to 12 weeks of paid parental leave for millions of federal workers.
- * Trump administration will provide HIV prevention drugs for free to 200,000 uninsured patients per year for 11 years.
- * All-time record sales during the 2019 holidays.
- * Trump signed an order allowing small businesses to group together when buying insurance to get a better price
- * President Trump signed the Preventing Maternal Deaths Act that provides funding for states to develop maternal mortality reviews to better understand maternal complications & identify solutions & largely focuses on reducing the higher mortality rates for Black Americans.
- * In 2018, President Trump signed the groundbreaking First Step Act, a criminal justice bill which enacted reforms that make our justice system fairer & help former inmates successfully return to society.
- * The First Step Act's reforms addressed inequities in sentencing laws that disproportionately harmed Black Americans & reformed mandatory minimums that created unfair outcomes.
- * The First Step Act expanded judicial discretion in sentencing of non-violent crimes.
- * Over 90% of those benefitting from the retroactive sentencing reductions in the First Step Act are Black Americans.

 **Melanie Nawrot Justin Belant** by any chance do you think maybe Obama should have done a travel ban on h1n1 that killed more Americans than this virus has thus far?

Like · Reply · 3w

1

 **Justin Belant Melanie Nawrot** Either read the source and address it, or stop contributing to the conversation. I'm not in this as a partisan "rah rah" celebration. People are dying. You are evidence of a strange "cult of personality" that puts the defense of the president's public image before things like basic logic, humanity, and common decency.

Like · Reply · 3w

3

 **Christy Fleischer** Wow, just wow!! We have a saying in our house Justin, never argue with an idiot because they'll just drag you down to their level and beat you with experience!! Don't let Melanie drag you down to her ignorant level!! You are correct about the cult, they refuse to see the truth, even if you put it right in front of them. We have become a laughing stock among other countries due to them electing a failed game show host with half a brain cell to run our country!!

Like · Reply · 3w

5

 **Melanie Nawrot Justin Belant** I dont have to read the source when I have watched the world health organization chief praise trump for how he is handling this, when I have watched trump do what he can for our nation.. yes people are dying, who's fault is that? CHINA. Stop putting the blame where it doesnt belong. I have to laugh though because you trump haters tout about how trump is handling this yet were silent when thousands died from the h1n1 that was poorly handled by your god Obama .

Like · Reply · 3w

2

 **Melanie Nawrot Christy Fleischer** failed game show host? He accomplished more in 3 yrs than Obama did in 8... cult? I am a policy voter which makes it easy for me to vote for trump. Want to see how well Democrat policies work? Go visit Nancy's district, dont forget your poop map.

dollars should pay for "free" healthcare for illegals.. I dont beleive in sanctuary states or cities, I dont agree with abortion up to the due date for the so called "mothers health ", I dont beleive my AR15S should be banned, I dont beleive here in Wisconsin any illegals that broke our law to be here should be rewarded with a drivers license.. I dont beleive we should have our essential products like medication made by a communist country like china, I beleive we as a nation should not have to rely on other nations but rather be self efficient. As a farmer I am glad china is now paying more than they have in history for our products and hard work.

2

Lauren Clodin It sure is scary to see a Sheriff attempt to silence us. This should be something we could only read about in history books.

Like · Reply · 5d

3

Rick Cohoon Lauren Clodin it Doesn't help any that the Sheriffs attorney is bold face LYING to the public thru News articles at Channel 3000 and Fox news stating no one was threatened with arrest. Hes trying to minimize damage to the Sheriff and the dept publicly via the media statements knowing they dont have a copy of sheriffs report that states differently. Also noticeable in the sheriffs attorney statement is void in mentioning the threat of being cited for disorderly conduct... he is being very careful and not addressing the disorderly conduct citation threats

Arrest Your Family Over Instagram Post?! Ep. 6.431

1

Like · Reply · 3d

**Geri Ann Cayer** Rick Cohoon this says it all!!

My husband gets home tonight and our daughter asks him if he heard about this whole thing. He said that he heard that she lied about all for attention. There was also another roomer going around that she got caught stealing while she was at Disney. I don't know anything about that, but the superintendent is telling all of these parents that she is a liar and was looking for attention. I hope you take them for all they're worth. I would make it so that the judge rules that they have to go public, on tv and apologize to you and your daughter and to the people for lying to them in return started spreading bad, untruthful things.

1

Like · Reply · 1d

Rick Cohoon She accidentally stepped outside a retail shop with an item to show another student for a second as she headed back to register to pay for it an employee intervened because she passed the register/sales point. It's been handled and she was not charged with theft or anything. She just got excited about showing an item to someone and didn't realize he stepped just outside the entry mark of the store. It was an indoor retail strip of stores at universal studios. We will be dealing with the school with another attorney after we are done with lawsuit against the Sheriff. The Sheriff is going to cost the county 100's of thousands of dollars in tax payer money for attorney fees when this is over. We are not suing for \$... we are suing for a ruling against the Sheriff, unfortunately he drug his deputy into this. Marquette Co needs to find a new Sheriff when this is over.

Rick Cohoon Kelsey Borchers we don't have to worry about contact with either... neither the Sheriff nor the school will call us now. They have to contact our attorney's.
